*MAT 051 and MAT 071 are prerequisite courses that do not transfer to William Woods. Your math placement may exclude you from taking these courses. MAT 115 is the degree requirement. Prerequisites to other courses in the degree are in the LSTC catalog.

Year Two at Linn State

Fall	Spring
COM 111 Oral Communications (General option) COM 211 Technical Writing CPP 215 Java Programming NST 101 Network Fundamentals (General option) NST 205 Linux Admin./Install. (Web Design option) NST 210 Microsoft Network Adm. (Web Design option) PHY 101 College Physics (4 cr) PHY 102 College Physics Lab (0 cr)	BUS 260 Project Management CPP 101 Introduction to Microcomputer Usage CPP Elective CPP Elective (General option) CPP or NST Elective (General option) Social Science graduation requirement

Year One at William Woods

Fall	Spring
<u>General Education</u> General Education – Creative and Aesthetic ENG102 English Composition II General Education – Value	<u>General Education</u> General Education – Critical Thinking General Education – Cultural Diversity General Education – Historical Perspective
<u>Major</u> MIS 100 Introduction to Web 2.0 MIS 325 Website Development	<u>General Education and Major</u> ECN252 Microeconomics <u>Major</u> BUS 206 Entrepreneurship

General Education. English Composition II is strongly recommended in the first semester. The other General Education requirements may be taken in any sequence. General Education courses are offered in the Fall, Spring and Summer semesters, and in eight-week online sections starting six times a year.

Major. ECN252 is offered each semester. Other remaining major requirements should be taken in the Fall and Spring semesters as shown below.

Summer

Summer Courses at William Woods. The William Woods summer session begins the Monday after the spring semester ends in May. Online and face-to-face courses are offered in May and online courses in late June. Seven hours may be taken from the May offerings; three hours in June. The summer schedule is available before fall registration begins in late March and typically includes multiple General Education and elective courses.

Summer Courses Elsewhere. You may take courses elsewhere during the summer and transfer them back to WWU. Up to 70 hours from community colleges (and 90 hours total) may be accepted in transfer toward a WWU degree. If you plan on taking summer courses elsewhere, please note the following:

1. Contacting the Registrar's office before you register for summer courses will let you know how those courses would transfer.
2. Your final 30 credits must be taken at William Woods to satisfy the university's residency requirement.
3. Most financial aid packages pertain to single institutions, so you are unlikely to receive that aid for summer courses elsewhere. Check with Student Financial Services for details.

Year Two at William Woods

Fall	Spring
