Year One at William Woods

Fall	Spring
<p><u>General Education</u> ENG102 English Composition II General Education – Creative and Aesthetic</p> <p><u>General Education and Major</u> BUS 214 Business Ethics</p> <p><u>General electives</u> Three credit hours</p> <p><u>Major</u> MIS 100 Introduction to Web 2.0</p>	<p><u>General Education</u> General Education – Cultural Diversity</p> <p><u>General Education and Major</u> ECN252 Microeconomics</p> <p><u>General electives</u> Six credit hours</p> <p><u>Major</u> ACC 412 Accounting Information Systems MIS 325 Web Page Development</p>

General Education. English Composition II and Business Ethics are strongly recommended in the first semester. The other General Education requirements may be taken in any sequence.

Major. Business (BUS) courses are offered in the Fall and Spring semesters and may be taken in any order. BUS415 and BUS450 should be taken in the semesters shown below. Accounting (ACC) 240 is offered in the Fall semester; ACC241 is offered in the Spring.

Summer

Students may take up to seven hours in the William Woods summer session, which begins the Monday after the spring semester ends in May. Online and face-to-face courses are offered. The summer schedule is available before fall registration begins in late March and typically includes multiple General Education courses and some major requirements.

You may take courses elsewhere during the summer and transfer them back to WWU. Up to 70 hours from community colleges (and 90 hours total) may be accepted in transfer toward a WWU degree. If you plan on taking summer courses elsewhere, please note the following:

1. Contacting the Registrar's office before you register for summer courses will let you know how those courses would transfer.
2. Your final 30 credits must be taken at William Woods to satisfy the university's residency requirement.
3. Most financial aid packages pertain to single institutions, so you are unlikely to receive that aid for summer courses elsewhere. Check with Student Financial Services for details.

Year Two at William Woods

Fall	Spring
<u>General Education</u> General Education – Critical Thinking General Education – Historical Perspective <u>General electives</u> Six credit hours <u>Major</u> BUS 206 Entrepreneurship MIS 450 Systems Analysis and Design	<u>General Education</u> General Education – Meaning General Education – Natural Science <u>General electives</u> Six credit hours <u>Major</u> MIS 475 Management Info.
