Year One at William Woods

Fall	Spring
<u>General Education</u> BUS 214 Business Ethics General Education – Creative and Aesthetic ENG102 English Composition II	<u>General Education</u> General Education – Cultural Diversity <u>General Education and Major</u> ECN252 Microeconomics
<u>Major</u> ACC 240 Principles of Accounting I MAT 114 Elementary Statistics	<u>Major</u> ACC 241 Accounting II BUS 332 Business Communications MAT 120 Calculus for Business

General Education. English Composition II and Business Ethics are strongly recommended in the first semester. The other General Education requirements may be taken in any sequence.

Major. ACC240 is offered in the Fall semester; ACC241 is offered in the Spring. BUS415 and BUS450 should be taken in the semesters shown below. Other remaining major requirements are offered in the Fall and Spring semesters.

Summer

Summer Courses at William Woods. The William Woods summer session begins the Monday after the spring semester ends in May. Online and face-to-face courses are offered in May and online courses in late June. Seven hours may be taken from the May offerings; three hours in June. The summer schedule is available before fall registration begins in late March and typically includes multiple General Education and elective courses.

Summer Courses Elsewhere. You may take courses elsewhere during the summer and transfer them back to WWU. Up to 70 hours from community colleges (and 90 hours total) may be accepted in transfer toward a WWU degree. If you plan on taking summer courses elsewhere, please note the following:

1. Contacting the Registrar's office before you register for summer courses will let you know how those courses would transfer.
2. Your final 30 credits must be taken at William Woods to satisfy the university's residency requirement.
3. Most financial aid packages pertain to single institutions, so you are unlikely to receive that aid for summer courses elsewhere. Check with Student Financial Services for details.

Year Two at William Woods

Fall	Spring
<u>General Education</u> General Education – Critical Thinking General Education – Historical Perspective <u>Major</u> BUS 206 Entrepreneurship BUS 231 Risk Management and Insurance ECN 251 Macroeconomics	<u>General Education</u> General Education – Meaning General Education – Natural Science <u>Major</u> BUS 321 Principles of Marketing BUS 415 Corporate Finance MIS 325 Website Development
