Definitions

Academic Year: Current academic year

Program: Major or Minor

Declared Majors: Count of students declared in the program as either first, second ,or third major broken down by New Incoming Freshman, Transfers, All Others (returning) and a Total. Undergraduate enrollment includes semester and online undergraduates.
Unclassified/Non-Degree - used for non-degree students, such as Life-Long Learners, MMACU, Missouri Military Academy, and Dual Enrollment.
Undecided - used for declared students who do not know what major they want to pursue. Must declare something else after 45 hours.
Unknown/Not yet declared - used for incoming students to populate field until offically declare a major.

Declared Minors: Count of students declared in the program as a minor.

Concentrations: Count of students declared in each concentration of the program.

Graduated Majors: The number of students who graduated with this program as their first, second, or third major in the previous academic year.

Graduated Minors: The number of students who graduated with this program as their first, second or third minor in the previous academic year.

Retention Rate (IPEDS Definition): The University retention rate is a percentage of total new first time students whose entrance year was the fall term, 1 year prior to current academic year who returned the fall of the current academic year.
The Program retention rate is a percentage of total new first time students in the program whose entrance year was the fall term, 1 year prior to current academic year who returned the fall of the current academic year in this same program.

Graduation Rate (New): The University graduation rate is a percentage of total new students whose entrance year was the fall term, 6 years previous to current academic year who graduated.
The Program graduation rate is a percentage of total new students in the program whose entrance year was the fall term, 6 years previous to current academic year who graduated in this same program.

Graduation Rate (Transfers): The University graduation rate is a percentage of total transfer students whose entrance year was the fall term, 6 years previous to current academic year who graduated.
The Program graduation rate is a percentage of total transfer students in the program whose entrance year was the fall term, 6 years previous to current academic year who graduated in this same program.

Declared Majors: Count of students declared in the program as either first, second ,or third major broken down by New Incoming Freshman, Transfers, All Others (returning) and a Total. Undergraduate enrollment includes semester and online undergraduates.
Unclassified/Non-Degree - used for non-degree students, such as Life-Long Learners, MMACU, Missouri Military Academy, and Dual Enrollment.
Undecided - used for declared students who do not know what major they want to pursue. Must declare something else after 45 hours.
Unknown/Not yet declared - used for incoming students to populate field until offically declare a major.

Declared Minors: Count of students declared in the program as a minor.

Concentrations: Count of students declared in each concentration of the program.

Graduated Majors: The number of students who graduated with this program as their first, second, or third major in the previous academic year.

Graduated Minors: The number of students who graduated with this program as their first, second or third minor in the previous academic year.

Retention Rate (IPEDS Definition): The University retention rate is a percentage of total new first time students whose entrance year was the fall term, 1 year prior to current academic year who returned the fall of the current academic year.
The Program retention rate is a percentage of total new first time students in the program whose entrance year was the fall term, 1 year prior to current academic year who returned the fall of the current academic year in this same program.

Graduation Rate (New): The University graduation rate is a percentage of total new students whose entrance year was the fall term, 6 years previous to current academic year who graduated.
The Program graduation rate is a percentage of total new students in the program whose entrance year was the fall term, 6 years previous to current academic year who graduated in this same program.

Graduation Rate (Transfers): The University graduation rate is a percentage of total transfer students whose entrance year was the fall term, 6 years previous to current academic year who graduated.
The Program graduation rate is a percentage of total transfer students in the program whose entrance year was the fall term, 6 years previous to current academic year who graduated in this same program.

Academic Year: Current academic year

Program: Major or Minor

Declared Majors: Count of students declared in the program as either first, second ,or third major broken down by New Incoming Freshman, Transfers, All Others (returning) and a Total. Undergraduate enrollment includes semester and online undergraduates.
Unclassified/Non-Degree - used for non-degree students, such as Life-Long Learners, MMACU, Missouri Military Academy, and Dual Enrollment.
Undecided - used for declared students who do not know what major they want to pursue. Must declare something else after 45 hours.
Unknown/Not yet declared - used for incoming students to populate field until offically declare a major.

Declared Minors: Count of students declared in the program as a minor.

Concentrations: Count of students declared in each concentration of the program.

Graduated Majors: The number of students who graduated with this program as their first, second, or third major in the previous academic year.

Graduated Minors: The number of students who graduated with this program as their first, second or third minor in the previous academic year.

Retention Rate (IPEDS Definition): The University retention rate is a percentage of total new first time students whose entrance year was the fall term, 1 year prior to current academic year who returned the fall of the current academic year.
The Program retention rate is a percentage of total new first time students in the program whose entrance year was the fall term, 1 year prior to current academic year who returned the fall of the current academic year in this same program.

Academic Year: Current academic year

Program: Major or Minor

Declared Majors: Count of students declared in the program as either first, second ,or third major broken down by New Incoming Freshman, Transfers, All Others (returning) and a Total. Undergraduate enrollment includes semester and online undergraduates.
Unclassified/Non-Degree - used for non-degree students, such as Life-Long Learners, MMACU, Missouri Military Academy, and Dual Enrollment.
Undecided - used for declared students who do not know what major they want to pursue. Must declare something else after 45 hours.
Unknown/Not yet declared - used for incoming students to populate field until offically declare a major.

Declared Minors: Count of students declared in the program as a minor.

Concentrations: Count of students declared in each concentration of the program.

Graduated Majors: The number of students who graduated with this program as their first, second, or third major in the previous academic year.

Graduated Minors: The number of students who graduated with this program as their first, second or third minor in the previous academic year.

Definitions

Academic Year: Current academic year

Program: Major or Minor

Declared Majors: Count of students declared in the program as either first, second ,or third major broken down by New Incoming Freshman, Transfers, All Others (returning) and a Total. Undergraduate enrollment includes semester and online undergraduates.
Unclassified/Non-Degree - used for non-degree students, such as Life-Long Learners, MMACU, Missouri Military Academy, and Dual Enrollment.
Undecided - used for declared students who do not know what major they want to pursue. Must declare something else after 45 hours.
Unknown/Not yet declared - used for incoming students to populate field until offically declare a major.

Declared Minors: Count of students declared in the program as a minor.

Concentrations: Count of students declared in each concentration of the program.

Graduated Majors: The number of students who graduated with this program as their first, second, or third major in the previous academic year.

Graduated Minors: The number of students who graduated with this program as their first, second or third minor in the previous academic year.

Retention Rate (IPEDS Definition): The University retention rate is a percentage of total new first time students whose entrance year was the fall term, 1 year prior to current academic year who returned the fall of the current academic year.
The Program retention rate is a percentage of total new first time students in the program whose entrance year was the fall term, 1 year prior to current academic year who returned the fall of the current academic year in this same program.

Graduation Rate (New): The University graduation rate is a percentage of total new students whose entrance year was the fall term, 6 years previous to current academic year who graduated.
The Program graduation rate is a percentage of total new students in the program whose entrance year was the fall term, 6 years previous to current academic year who graduated in this same program.

Graduation Rate (Transfers): The University graduation rate is a percentage of total transfer students whose entrance year was the fall term, 6 years previous to current academic year who graduated.
The Program graduation rate is a percentage of total transfer students in the program whose entrance year was the fall term, 6 years previous to current academic year who graduated in this same program.

Definitions

Academic Year: Current academic year

Program: Major or Minor

Declared Majors: Count of students declared in the program as either first, second ,or third major broken down by New Incoming Freshman, Transfers, All Others (returning) and a Total. Undergraduate enrollment includes semester and online undergraduates.
Unclassified/Non-Degree - used for non-degree students, such as Life-Long Learners, MMACU, Missouri Military Academy, and Dual Enrollment.
Undecided - used for declared students who do not know what major they want to pursue. Must declare something else after 45 hours.
Unknown/Not yet declared - used for incoming students to populate field until offically declare a major.

Declared Minors: Count of students declared in the program as a minor.

Concentrations: Count of students declared in each concentration of the program.

Graduated Majors: The number of students who graduated with this program as their first, second, or third major in the previous academic year.

Graduated Minors: The number of students who graduated with this program as their first, second or third minor in the previous academic year.

Retention Rate (IPEDS Definition): The University retention rate is a percentage of total new first time students whose entrance year was the fall term, 1 year prior to current academic year who returned the fall of the current academic year.
The Program retention rate is a percentage of total new first time students in the program whose entrance year was the fall term, 1 year prior to current academic year who returned the fall of the current academic year in this same program.

Graduation Rate (New): The University graduation rate is a percentage of total new students whose entrance year was the fall term, 6 years previous to current academic year who graduated.
The Program graduation rate is a percentage of total new students in the program whose entrance year was the fall term, 6 years previous to current academic year who graduated in this same program.

Graduation Rate (Transfers): The University graduation rate is a percentage of total transfer students whose entrance year was the fall term, 6 years previous to current academic year who graduated.
The Program graduation rate is a percentage of total transfer students in the program whose entrance year was the fall term, 6 years previous to current academic year who graduated in this same program.
