Program Profile

Program Mission Statement

Please insert your program mission statement here

William Woods University supports a three tiered theatre program whose primary goal is to educate and train students in the art of theatre. The three tiered program consists of academics and training, co-curricular main stage productions and student workshop productions. This program reflects the mission statement of the University by preparing students for graduate study, professional or non-professional participation in theatre.

A secondary goal of the program is to provide services and performances of outstanding aesthetic caliber for the students, faculty and staff of William Woods University and surrounding communities. We strive to present a varied season of theatre productions to expose the students and audience members to a wide selection of theatrical genres. We feel that not only is it important to educate the student, but it is equally important to educate the audience and provide a quality source of entertainment.

It is the belief of this faculty that self-discipline, self-knowledge and knowledge of man and society are necessary attributes for any creative artist. Believing that theatre is an organic and symbolic expression of life interpreted through a fusion of the arts, the department encourages the student to gain knowledge of other disciplines available in the University's liberal arts-based setting. In turn, the Theatre Program provides a variety of 100 and 200 level courses that meet the Aesthetics objective of the common studies program.

Students are encouraged to develop realistic career goals and aspirations, and whenever possible, are placed in apprenticeship programs which reinforce those career choices. We believe that if an artist is to be ultimately successful, they must identify and communicate with their fellow man; therefore, self-confidence and communication skills are emphasized within the training. Understanding that much of an artist's creative work is accomplished in a solitary fashion, students are encouraged to develop independence and self-motivation.

The following opportunities will be provided in addition to the academic degree programs:

1. A varied selection of co-curricular mainstage performances which will include diversified types, periods and styles.
2. A student laboratory production program that provides broad experiences in all types of theatre.

We also believe that it is the responsibility of this department and faculty to offer students the following:

- A learning atmosphere conducive to creativity and development for our students.
- Pre-professional training and guidance toward successful entrance into the profession of theatre.
- Discipline and responsibility to our students toward themselves and their crafts.
- The highest standards of our crafts that we can and to teach our students to do the same.
- Work toward better classroom technology, equipment, facilities teaching techniques and programs.
- Information on the most current trends and innovations in theatre.

In summary, our main objective is to educate and train our students in the art and profession of theatre using every available resource to mold our students into versatile performers and technicians ready to meet the demands of theatre.

Student Demographics

Program goals for student retention, persistence and degree completion are? What do the persistence numbers mean to the faculty in the program? Are your persistence numbers what you expected? If not, how could the numbers be improved? What is the optimal enrollment for the program?

We strive to keep students academically and artistically challenged and on track to degree completion. Transfer students may need an extra semester due to the major requiring 45 credit hours for completion, but typically students are able to complete the degree in a timely fashion. The one exception to this would be the BS in Speech and Theatre Education which tends to add an extra semester for completion due to constant changes in state education requirements and completion deadlines. Student retention in our area is also directly related to the kinds of productions we are able to produce. Just like a winning season attracts new players to a sports team, so too does a successful production season attract and retain students to theatre.

Analysis of the Assessment Process

Describe your assessment process; clearly articulate how the program is using course work and or assessment day activities for program assessment. Note any changes that occurred to that process since the previous year. Discuss what activities were successful at assessment and which ones were not as helpful and why. Please include who met to discuss the changes (unless you are a program of one person) and when you met. – Include a discussion on the process for collection and analysis of program data.

Course assessment and portfolio outcomes are being used to assess the effectiveness of the curriculum. We have altered the portfolio review to better reflect the the outcomes of the theatre major.. Both performance based assessment and test based assessment were used in the process. Students scored poorly on the the history/literature section of the written

test. This has alerted the faculty to change the curriculum to better the results. retention of historical facts and periods of theatre history has been problematic.

Theatre Test - A test over general theatre knowledge will be administered during the Portfolio Review. This test will cover theatre history, performance technique, technical theatre and dramatic theory and criticism including knowledge of important playwrights.

Results

You will receive a written copy of your portfolio review results before the end of the semester and will be required to make an appointment with the Artistic Director to assess the results of your review.

Non-Participation

Theatre majors failing to participate in the review process and testing will result in the **loss of your scholarship and/or your status as a theatre major.**

Data results - indicate that we are right where we should be with the major with one exception - history and dramatic literature. Student are not retaining the material and being able to use it to their advantage as majors. they scored very low on the history portion of the written test. the curriculum will have to be restructured. After further discussion the faculty have decided to build the course around the literature from each time period the two courses in history cover and to use those plays as the cornerstone for the teaching performance styles, period styles productions styles and the effects theatre had on each time period.
